The Old Red Gate.

BY DORA DAVIS.

Once more in the dying day,
By the old red gate I stand,
The clover lies green at my feet,
Its blossoms are white in my hand;
While shadows the locusts are weaving,
With a dull, unacknowledged pain,
For time to come back I am wishing,
With the gift of my youth again.

Oh! to stand in the amber light,
With my beautiful dark-eyed love,
Where the clover lay green at my feet,
And the locusts were blooming above;
To hold a white hand at parting,
And touch the red lips of the girl,
When the moon rose over the lakelet,
Which shone like an Orient pearl.

She is lying asleep in the churchyard,
'Neath blossom, and bow, and vine,
My name is inscribed on the head stone,
The name that was hers and mine;
And garlands of wild clematis
Are shrouding the dark-eyed Kate,
Whose lips met mine when we parted,
Way down by the old red gate.

The dahlias were whitening the hillside,
And gemming like stars the heath,
When I stood with my pale-faced darling,
Close down by the waves of death;
So close that I heard in fancy
The rush of the fitful tide,
And the dripping oars of the boatman
Who wafted away my bride.

Ah, well! the years that have lingered,
So freighted with sorrow and care,
For the saint-white face in the coffin,
Have silvered the brown in my hair.
I am looking from life's West window,
The sky is cloudless and clear,
But I know by the lengthening shadows
The [illegible] of death is near.

When the bells that rang at my wedding
For joy, [illegible]rly toll;
And the feet [illegible] first and stricken,
No longer shall prison my soul;
In the light of the glad to morrow,
I'll go from the old red gate,
To find in the great [illegible]ter
My [illegible]ful, dark-eyed Kate.

A COMPLIMENT TO THE CHINESE.—The Sacramento *Union* says:

We believe it is now generally conceded that the work on the California end of the Pacific Railroad has been conducted with far more regularity and good order, if not dispatch, than on the Union Pacific. The feat of laying down ten miles of rail in one day, last week, astonished the Union Pacific managers. It is also a fact that the laborers on this end have been much better behaved and disciplined than on the other end of the road. We do not now recall to mind a single death by wanton violence on the line of the Central Pacific during the past year, while hardly a day has passed on the other end of the road without some act of murder or other atrocity. We think a great deal of this good order, and of [illegible] of violence is fairly attributable to the natural docility of the Chinese race, who have composed a great part of the force on the Central Pacific. Doubtless much of it is due to the rule which excluded ardent spirits; but not all. The Chinese have honestly won a compliment for good order, sobriety and good work, which ought to shame those white [illegible]men who are in the habit of traducing their morals at the same time they are murdering each other.

The Paris correspondent of the New York *Times* call for an American daily in that city. He calls attention to the fact that there are already five weekly papers in English printed in the interest of Americans, and that they all pay well. *Galignani* succeeds because it is so thoroughly English in its news and views, but this very feature makes it unacceptable to Americans, who "cannot read it half the time without having their digestion spoiled for the rest of the day." The correspondent thinks that a daily paper, even if very small, well [illegible], edited by an original Union man, but pursuing an independent course, would be a success in securing a good subscription list and an abundance of well-paid advertisements.

At the recent Dickens banquet, at Liverpool, Lord Houghton, who presided, berated the novelist soundly because of the unflattering characters given to members of the Upper House of Parliament by the guest of the evening. In the course of his reply, Dickens asked his Lordship, "What amazing devil possessed him to make the charge that he had been unmindful of the merits of the House of Lords?" Lord Houghton answered that he had never forgotten Lord "Verisopht." Dickens said that at the same time that unnatural character was invented it was a remarkable fact that there was no Lord Houghton in the House of Lords.

We find copied from the Jackson, Mississippi, *Clarion* a statement of "the policy of the rebels" of that State. The programme is as follows: "Vote down the disfranchising clause; accept those which remain; and strive by all the legal means and the legitimate agencies at command to elect good and reliable men to administer the new government and to represent our neglected interests at Washington." If rebel principles are as wise as the above, loyalty in Mississippi, must have reached a very high standard.

Devoted to Agriculture, and the other Industrial Interests of the North Pacific Coast.

RECOMMENDED BY THE STATE AGRICULTURAL SOCIETY.

THE NECESSITY WHICH HAS SO LONG EXisted in Oregon for a journal where Farmers and other laboring men could meet and discuss their mutual interests, is obviated by the establishment of the WILLAMETTE FARMER.
The paper will advocate and labor for all interests that will advance the prosperity of the Farmer and Mechanic, and will have in view especially the encouragement of the cultivation and improvement of the soil, and the agricultural development of the State, fostering every branch of mechanical and household arts calculated to increase the happiness of home life, and extending and facilitating the various branches of Agriculture, Stock-Raising, and Mining and mining interests.
Especial attention will be paid to the department of

Domestic and Eastern News,

And the subscribers to the FARMER will receive each week a careful and complete synopsis of all the news of the State and adjoining Territories, compiled from our exchanges and other sources, as well as a summary of Eastern telegraphic news,—thus furnishing our readers a complete

THE APPETITE FOR TOBACCO DESTROYED!

LEAVE OFF SMOKING AND CHEWING THE POISONOUS WEED, TOBACCO

ORTON'S PREPARATION!

ESTABLISHED 1866.

One box of Orton's Preparation will destroy the appetite for Tobacco, no matter how strong it may be, or how long it may exist. It is warranted to do so in every instance, or the money will be refunded. It is entirely vegetable, and perfectly safe and harmless. It will also break off the most inveterate of the habit. Nature in overcoming the habit of the Preparation will [illegible] trouble. *Hundreds* have used it who are willing to bear witness to the fact that it completely destroys the appetite for Tobacco, and from any desire for it as use. The Preparation acts and no sections affect those upon the blood, though cleansing the [illegible] system and thus allaying Tobacco. *You never have occasion for [illegible] after using Orton's Preparation. Recollect it is warranted.*

The time taken to allay all desire for Tobacco by the use of the Preparation varies *slightly* in different persons, the *average* time being about *five* days. Some have no desire for Tobacco whatever after using the Preparation *Two* days.

The *Health* and *Purse* of every Tobacco user in the country calls loudly, ABANDON THE USE OF TOBACCO

RECOMMENDATIONS.

The following are a few selected from the multitude of recommendations in our possession

We, the undersigned, hereby certify that we have used Orton's Preparation for the purpose of destroying the appetite for Tobacco, and can assure those who are suffering from this habit that Orton's Preparation will certainly destroy the appetite for Tobacco *quickly* and *permanently*, and without any bad effect upon the health, and without creating an appetite *either for the Preparation or any substitute.*

From Samuel Cassidy, Editor Journal & Argus:

PETALUMA, CALIFORNIA, Dec. 14, 1868.

For about twenty years I had used Tobacco in its various forms, and for the past eight years had been an inveterate smoker. Becoming satisfied that the excessive use of this narcotic was seriously impairing my health, I determined if possible to check myself of the habit. Hearing of Orton's Preparation for destroying the appetite for Tobacco I sent to Portland, Me., for a box of the medicine, which I received through the mail on the 17th of November. A month has not elapsed and yet the medicine has effectually relieved me from any yearning or desire to use Tobacco in any form. The Preparation is not more difficult or unpleasant to take than to commence chewing gum. I conscientiously believe the Preparation will have the promised and desired effect in every instance where it is given a fair trial. Upon that belief and from an honest desire to assist those who wish to break away from the slavish appetite for Tobacco I offer this testimonial.

SAMUEL CASSIDY.

☞ *Beware of Counterfeits and all articles purporting to be like this, of the same name or otherwise. The great popularity of Orton's Preparation has induced unprincipled persons to attempt palming upon the public counterfeit and inferior articles. Purchasers will please order directly from the Proprietor, or his duly authorized Agents.*

The price of Orton's Preparation is $2 per box, or three boxes for $5, sent by mail to any part of the country securely sealed from observation, with passage paid on receipt of price.

How to send money by mail.—Enclose the amount in a letter, seal carefully, register the letter and take a receipt for it of your Postmaster. Money sent by mail as above directed at my risk. Address

HIRAM SMITH'S

Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.

It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS, &c., as has been sufficiently demonstrated during the few months in which it has been brought into public notice. The proprietor is so fully convinced of its INFALIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.

It has cured cases of FIVE, SIX, NINE, FIFTEEN, and even EIGHTEEN YEARS' standing in Harrisburg, Linn county, Oregon, and its vicinity, to which the following persons will bear witness:

E. B. MOORE, NATHANIEL BELL,
A. L. WALLACE, C. R. WARD,
Mrs. MONTGOMERY, JOHN M. HOLLOWAY,
W. D. PORTER, ROB'T RAMSEY,

And others in that vicinity.

Persons afflicted with the distressing scourge of diseased eyes are advised to give this remedy a fair trial on the NO CURE, NO PAY and NO INJURY plan.

AN EXCELLENT AND PRACTICAL SUGGESTION.—The Post master at this city frequently receives letters of inquiry concerning Oregon. The writers hail from all the known and unknown parts of the Atlantic States. They want to know all about Oregon, and they write to the Post master because they don't know anybody here, and they suppose there *must* be a postmaster. The responses some of the letters would require the labor of weeks if the attempt were made, to answer them fully. The Postmaster has too much to do to pay more attention to such correspondence, and, in consequence, the letters have for years been occasionally, turned over to more or less other writer for the press. We have not always had the means of answering the letters definitely or even with approximate correctness, even if we had time and disposition to do it. So, the most of such inquiries have remained unanswered, and the writers of them still sit in darkness.

There is no doubt but that now there are great numbers of people, scattered all over the States, who are looking toward Oregon, wistfully, but fearful of making a start hitherward, because of a "plentiful lack" of information. Numberless schemes for imparting needful knowledge of our State to the people of the East, have been talked about, but in no instance, so far as we know, has any one of such plans been carried into full effect. Articles—and good ones, too—have been published in our papers, and a few good letters have found their way into the "Patent Office Reports," but these publications do not reach one reader in a hundred thousand, in the Eastern States. Mr. Wakefield, our present postmaster, proposes to be one of five men to offer a prize of $33 for the best pamphlet article on Oregon, combining in the most concise, clear and practical form such information as would be most likely to be useful and wanted by people at the East. He proposes, then, further, to have the selected article printed in pamphlet and send to every leading newspaper east of the Rocky mountains, with a request to publish, and, if necessary, to pay for its publication in some of the leading journals in various sections of the country. This is one of the most practical schemes we have heard mentioned, and it will not be particularly expensive. By it, a greater number of readers would be reached than by any plan hitherto tried. They would be reached through their own local newspapers. We may estimate that at least one million would read the article, and talk about it, and that one of every hundred or five hundred of such readers might be induced to emigrate. The eventual result would not be measured altogether by the number induced in the first instance to come here. The tide of emigration thus started would continue with more or less volume and our truest place would in a few years be filled. But who will come to Mr. Wakefield's proposition? Gentlemen, send in your names.

ADVERTISING TO MERCHANTS.—A day or two ago we published a paragraph which shows what the Chicago [illegible] are doing in the way of contributing for the trade of our great Pacific interior, and now we have the following from the *World* of Idaho City, which foreshadows a revolution in trade, sure to come unless our railroads and transportation companies speedily make an application of hitherto unknown enterprise and liberality. The *World* says: "To Mr C. S. Kingsley, of the 'Boise Store' in this city, the credit belongs of having created the direct overland traffic with the East from Idaho city. A few weeks ago, merely to test the matter, Mr. Kingsley sent an order to New York for several dozen of gum boots, to be forwarded to him by way of the Union Pacific Railroad to the terminus, and thence by Ben Holladay's stages to Boise City, and from there by Greathouse's stage line to this city. The goods were delivered here on Monday evening, in fine condition, and at less cost than by the route from San Francisco. Kingsley says that he can now have goods sent to him from New York at an aggregate cost of sixteen cents per pound (less currency), and of course this cost will be reduced when the western terminus depot of the railroad is reached and goods can be there stored to await regular freighting teams to haul them from there into Boise City, or to this point. The road between Boise City and the [illegible] is not so long, and nothing like so hilly and difficult to haul big loads over, as that between Boise City and Umatilla. A revolution is soon to take place in this city of a purchasing market for merchants and dealers in [illegible], and in the freighting line as well, and Kingsley, with his live trade capacity, has inaugurated the [illegible] and Chicago and St. Louis, and the great commercial marts of the states along the Atlantic seaboard, may [illegible] be reckoned as rivals of San Francisco and Portland in supplying goods for the markets of Idaho."

LOCAL MATTERS.—There are a number of Indians, said to be from the Siletz Reservation, camped near the Railroad bridge at the head of Fourth street. They have been a little trouble by petty stealing in that neighborhood. The work of grading and planking D street has been [illegible] by Messrs. Estes & Stinson, contractors.

The brig *Sitka* Owens was towed down the river yesterday by the *Oregon*.

The bark *H. W. Almy* arrived at this port Monday night, and is now discharging cargo at the steamship dock.

U. S. J. C. Cartwright, U. S. District Attorney, has fitted up and is now occupying an office at the corner of Washington and Front street.

The [illegible] from below are bringing up some very large, large Chinook salmon from the Columbia river fishing.

The rain storm which set in, on Monday, still continues, with a warm, glowing temperature.

Some boys, a day or two since, broke into the Central School and destroyed or defaced a number of charts, globes and furniture.

John A. Veatch, Professor of Chemistry in the State University, is staying at present in this city, preparatory to an extended trip of observation in the Cascade mountains. He intends to make a pretty thorough geological and geological exploration.

FROM THE PLAINS.—Mr. A. Myers who left a few days since, overland for the States, writes us from Ogden, Utah, under date of May 8th, as follows:

"So far the trip across the continent has been very pleasant. The roads to this place are excellent, yet the time of seven days is consumed in making it—the same as from Portland in the winter. In a few days Mr. Ben Holladay says he will change the route and land the passengers at Indian Creek, about sixty miles west of this place, and will put passengers through in four days from there to the railroad, making the time from Portland to the railroad six days, and fare from Portland to Ogden $100. It requires five days from here to New York or Washington. The fare is now as follows: from Ogden to the railroad, $100 *coin*; from this station to Omaha, $118 05; to New York, $121 25 greenbacks. There is nothing interesting to report up to this point. A few buttes, dry sands, dismal sage-brush, alkali dust and sunburned noses."

AMOUNT PER BARK ALMY.—The following is the list of [illegible] per bark *H. W. Almy*, with number of packages to each: K, H & Co, 70 pkgs; H L P & Co, 44; triangle R, 1,126; E Elkoles, 8; diamond F H F, 361; H W & Co, 14; B J N & Co, 116; A & L, 216; E diamond E, 600; A & L, 1,070; P T Co, 2; H F & Co, 4; S B & Co, 31; E O Adams, 2; T de C, 11; diamond G S, 5; J and S & Co, 13; U & W, 200 bbls lime, S & D, 89 pkgs; B & F, 211; H & H, 1; W Young, 12; Walter Bros, 25, H & V, 50 doors; E dia M & Co, 10 bbls lime; F L Tilestone, 3 pkgs; Q & Co, 23; H, D & Co, 310; O & Co, 52; O & Co, 6; F & Co, 195; dia T B, 274, W & F, 35; Charles [illegible], 1; F & Co, 193; C & M, 348; M & L, 8; Charman Bros, 16; S & W, 21.

MAIN STREET AND THE PLAZA.—A petition is in circulation praying the Council to let the Plaza alone: or, in other words, protesting against cutting it into halves by Main street through it. Wonder if the protestants think that the Council after letting the Plaza alone for so many years, can be prevailed upon to stay their hands now that they have really commenced to fix it up? If there is in existence any possible way to forfeit the city's title to it, it is a safe bet that the Council will drop on it, and get the whole matter in such a tangle that no ingenuity could never unravel it. We should not be surprised to yet see some private individual jump the whole concern, and diddle the city out of it, through the [illegible]'s tinkering.

THE MOOSE CREEK MINES.—We mentioned sometime since the discovery of rich diggings on Moose Creek; but the excitement just then prevailing, so far [illegible] all the northern mining regions that little or [illegible] was again heard concerning Moose creek until quite lately. We hear, however, that a good many miners are now turning their attention that way. The Walla Walla *Statesman*, of the 14th, says: "A company of fourteen in number, left Walla Walla in the early part of the week, bound for the Moose Creek mines. The route is from this camp are highly favorable and Moose Creek promises to be one of the most important districts for mining in the Northern country."

CHERRIES.—The first cherries of the season—Oregon cherries—were brought into the market yesterday, from the orchard of Mr. Lundling of Milwaukie. They are [illegible] for the very reasonable price of four bits a pint! When will our fruit growers learn to be sensible and [illegible]! A few bites of a cherry at the present prices would bankrupt the most of us, and leave our pockets bare when cherries get down to a bit a pound. Of course, then, the cherries at a bit a pound must rot without buyers, and the growers will be losers. We shall not be among the mourners if they don't make a cent on the whole year's crop.

UP THE COLUMBIA.—The Walla Walla *Union*, of the 15th inst., says the fruit crop of that valley will be immense this year. Some of the growers will be obliged to knock a part of the fruit to keep their trees from breaking down.

One hundred and twenty Government mules were sold at the Government corral, on Friday last, bringing good prices.

The citizens of Walla Walla are making preparations for a [illegible] on the 5th of July.

ONE FINE THEATER.—The dashing drama of "Satan in Paris, or the Mysterious Stranger," will be produced this evening at Ore Ryan Theater. Mrs. Bates will personate six characters, and Mr. Bates will make his first appearance of the season in a favorite character. The piece is cast to the full strength of the company, and the entertainment will be one of the best of the season.

MARKHAM HOUSE.—We learn that the inevitable and [illegible] Biles—J. D—is expected home by the next [illegible]. We shall be prepared to hear some "moving sights" concerning his overland trip through the snow banks of Colorado.

The *Commercial* says, a private telegram was received on [illegible] day from San Francisco by one of the broker firms here, giving the price of gold and greenbacks in New York as follows: Gold 141½, bringing greenbacked up to 104½ cents.

TO SAIL.—The steamer *Geo. S. Wright* will sail for Victoria and Puget Sound, on Tuesday the 25th.

The *Gazzie Telfair* will sail on Friday for same destinations.

FROM SAN FRANCISCO.—The steamship *Orizaba* sailed from San Francisco, for Portland, yesterday.

THE PAVILION is to be removed into Capt. Ollman's new building, Salem, as soon as rooms can be fitted up

WASHINGTON TERRITORY.

The Olympia *Tidewater* of the 15th has the following

On Saturday last, at a few minutes past twelve o'clock, noon, a fire broke out in the kitchen of the Pacific Hotel. The rooms over the kitchen were in complete flame before they were discovered, but so prompt were the actions of our citizens that the fire was soon under subjection. Buckets of water and a portable "Fire Extinguisher" were first brought into requisition and began to check the flames before the arrival of the engine and fire apparatus, which was promptly on the ground and did good service. The fire probably originated from the chimney. The loss was not over $100.

Mr R G Stewart, Deputy Collector, informs us that on Tuesday last, between two and three o'clock P M, a swarm of bees passed near the corner of his office, coming from the eastern part of town, and passing west over the bay towards the timber. They probably came out of some hive in town. We are of the opinion that wild bees will finally become abundant in the timber of this coast.

The Philadelphia *Press* relates an anecdote of the late Mr. Swain, formerly editor of the *Public Ledger*, who was met by an exclamation, "Mr Swain, I stopped your paper, sir." Swain was thrown into a profuse sweat directly. He expressed the greatest grief that any one should take it into his head to stop his paper, and finally prevailed upon the stopper to accompany him to his office, where everything was progressing as usual, whereupon Swain turned upon his acquaintance with the remark, "I thought you said you stopped my paper—everything is going on as usual I see." "I meant to say I stopped taking *my* copy of your paper." "Oh!" said Swain, and thereupon begged the gentleman's pardon for walking him down so many blocks out of his course for such a trifle. The irate gentleman then perceived his stupidity in time to renew his "patronage."

WELL ANSWERED.—"Well," remarked a citizen of Jacksonville to a friend from Ashland, a few days ago, "you people are putting on many airs out now—going to build Academy I hear." "Yes," responded the Ashlander, "we propose to do something for education." "Well I would like to know," said the first party, "how you can afford to be so liberal up there, we have about all we can do to live and pay our taxes." "Very true" replied the Ashlander quietly, "your taxes are heavy, you have to pay a tax of about $60,000 a year to support your nine saloons, and of course are not expected to have any money to spare for public enterprises. We have no saloon to support—don't pay a cent of whisky tax and consequently have a little spare cash to invest otherwise." Our citizen asked how grain looked up there.—*Jacksonville Sentinel.*

ONE POUND of *Kane's Condensed Soap*, dissolved in boiling water makes FOUR GALLONS of very superior Soft Soap.

Dept of the Columbia
Carter's Building, Portland, Oregon, May 24 1869
SEALED PROPOSALS IN TRIPLICATE ARE INvited and will be received at the Office of the ACTING COMMISSARIES OF SUBSISTENCE, at each of the following named Military Posts until 12 M. on FRIDAY, 25th inst., for delivery of
FRESH BEEF!
to Troops and others who may receive subsistence at Fort Stevens, Oregon, Fort Cape Disappointment, Fort Vancouver and Camp San Juan Island, W T from July 1, 1869, to June 30, 1870.
Written proposals will be required and they must be stated in cents, but payment will be made monthly by the Commissary at each Post, in the equivalent of coin for the quantity of Fresh Beef accepted at the Post during the month.
The United States reserves the right to reject any or all bids and the expense of this advertisement inserted in three News papers and of printing posters to the same effect will be divided among the successful bidders *pro rata*. This condition must be expressed in the bid or must be understood by each bidder whose proposal is entertained. Any necessary information solicited by persons not familiar with the manner, etc., of making Proposals, quality of the Beef required, times of delivery, etc., will be cheerfully given at the office of the Commissary of the Post concerned. Acceptable bonds will be required and no bid will be entertained from strangers, unless the bid be accompanied by guarantee of proper party that the proper bond will be given and the agreement duly executed.
AT THE SAME HOUR, ON THE SAME DAY, and under essentially the same conditions as above, TRIPLICATE sealed proposals will be received at *this* office, for furnishing and delivering
BEEF CATTLE AND MUTTON SHEEP,

MERCER'S PIONEER LINE (Monthly).
NEW YORK

The Daily Oregonian.

WEDNESDAY MORNING MAY 19 1869

Waiting for a Subsidy

The St Paul Minn *Press* of recent date says it has information that the Northern Pacific Railroad Company will soon begin the construction of the road at Wallula on the Columbia river This report is probably not correct but we take notice of it for the purpose of showing the drift of railroad talk in connection with this great enterprise The informant of the *Press* says that the Company propose to construct their first section from Wallula the head of navigation on the Columbia river to Pend d Oreille Lake across which there is fifty miles of steamboat navigation to the mouth of Clark s Fork A section of 250 miles of railroad from Wallula to Pend d Oreille Lake, will thus afford an outlet for Montana on the Pacific through the series of water lines with which it will connect, and thus turn the trade of Montana toward the Pacific coast

The plan is a perfectly feasible one It affords the easiest, cheapest and quickest way of supplying Montana, and it may ultimately be put in operation But we do not look for it to begin this year The Company want a Government subsidy, and have not yet relinquished the hope of getting one The railroad lobby will go to Washington this winter and make one more effort We do not believe that effort will succeed But when it is past hope the Northern Company, as well as some others, will be very likely to commence on their own resources A magnificent land grant is already secured for the construction of the Northern road This is the most valuable grant ever made by our Government The route lies through a valuable section of country abounding in minerals and the best of agricultural lands This is a grant which can really be turned to some use in the construction of a railroad The grant of lands made to the Union and Central Pacific lines will not begin to compare with this in value Instead of running like those lines through long stretches of barren country which can furnish no local traffic for a road, the Northern Pacific will pass through sections surpassed by none for fertility of soil or mineral wealth We fully believe that the construction of this road at one or both ends would have begun ere this but for the hope of a Government subsidy in bonds.

The fact that the Company have been considering the matter of commencing the road at the head of navigation on the Columbia, with a view of adopting the most speedy way of supplying the Montana trade, shows that they have a knowledge of the situation even though the proposition may for the present be nothing more than talk In an article on this subject, published in the OREGONIAN nearly four years ago, we said "To commence at the western end and work as it would involve the construction of the whole line and years of delay before the road could be useful Give us 'active. The navigation of the Columbia is established from the Pacific ocean to Wallula, a distance of 300 miles in a straight line. From there to Pend d' Oreille Lake is a distance of about 250 miles. Over this distance a road can be built in quite a direct line, without entailing any serious obstacle." Then we are told by a portion of the people of Montana " The Detroit *Post*, which is evidently good authority, says that when the Company get ready to begin operations they will commence at both ends at once Though nothing has yet been done now to push on this great enterprise, we do not believe the project will be abandoned.

Our Relations with England.—No Danger of War.

There are those who are particularly nervous about our relations with Great Britain They cannot see how we are to get along without an immediate settlement of our difficulties with that country, on a collision upon the Alabama Claims question and Great Britain does not accede to those demands. Will war ensue? It is not supposed that the United States will begin it And will Great Britain go to war because she has refused to grant our demands? This certainly would be an extraordinary proceeding. Who ever heard of a nation declaring war for such a reason? Great Britain respected and feared our power while we were torn with civil war, and is it likely that she will be forward in provoking a quarrel with us now when our hands are free and the whole nation ready to fight for the old flag against a common enemy?

A New York paper has some judicious remarks on this subject, which we herewith quote. "It is true that a war with Great Britain would be popular in this country. The persistent refusal of England to do us justice will intensify all of our traditionary and existing prejudices, so that a war with our old enemy would be as popular as in twenty years from now as at present But we have other fish to fry at present We have to develop and consolidate our vast territory by the construction of more Pacific railways, by the settlement of the South, by the enlargement of our canals, by the improvement of our rivers and harbors, by the opening of our mines, and by the diversification of our agriculture and manufactures We must reduce our debt and secure an honest collection of our revenues In these ways we shall become ready to face a world in arms in defence of a just cause Until then peace is our policy

And peace is the policy of General Grant He is probably aware of the fact that English public sentiment will not tolerate the acknowledgments which he would demand What will be the result? Simply this, that the English government will find itself saddled with a permanent source of apprehension and anxiety even Conscious of wrong doing, and yet ashamed to make the only acceptable reparation, it will become nervous whenever a great Fenian demonstration is made in America, or a braggart like Chandler makes a silly speech in Congress, or when the breaking out of a European war or an insurrection in Ireland seems likely to give a chance for the launching of new *Alabamas* to prey on British commerce This is the prospect which British statesmen have before them and he who would spare them a single drop from the bitter cup of their deserved retribution is no true American

The *Herald* says the next issue will be amalgamation Now amalgamation has for some time been an issue in the Southern States, where the number of mulattoes corresponds almost exactly with the number of Democratic voters And if this question really becomes an issue throughout the country as the *Herald* predicts no doubt the Northern Democracy will be ready for it

The Oregon and Washington Health Reform Society will hold its third annual meeting at Amity, Yamhill county, on the 3d of June next.

In General

The Hab Will amendment of the Constitutes for Congressmen in Washington Territory perhaps represents the party vote in the United States Grant will receive the Democratic Party considering its Democratic source a triumph severe on Moore

We have some account in the dispatches of the great national peace jubilee that is to take place at Boston The Chinese are to be in the procession and will be the largest building in America under one roof It will cover between three and four acres Gen Sickles is to be present on the occasion

Democrats disagree While the party trash of the party in Oregon continue to mourn over the abolition of slavery Henry A Wise of Virginia rejoices at it and thinks that God ordered and directed an Union to forced the emancipation of slaves in America, by war knowing that there was no other way to bring it about *Herald* [Copy]

Under the caption of Protestant Responsibility that bed rock Democratic paper the Idaho *Herald* very ungratefully says In response to Andrew Johnson s challenge in his farewell address Whom have I defrauded? whom have I oppressed G B Lamar publishes a pamphlet, showing that Mr Johnson falsely imprisoned him, when sick, many months—refusing him hearing and trial searched him and seized his papers without warrant—took 3,700 bales of cotton without compensation and damaged him in various other particulars A great many others can respond equally as damaging for Andy and unhappily there are not a few who rest in death whose responses can only come in the spirit world.

The *Herald* has an article headed "Sublime Justice," in which it is predicted that emancipation will prove the death warrant of the blacks, and that the negro will soon disappear before the whites and leave this whole continent to the Caucasian race Following immediately after this triumphant prediction is another editorial article in which it is gloomily asserted that "the world is passing mad," that the amalgamation of the races and the degradation of the whites is imminent and that the Radicals will endorse amalgamation as their next forward movement But why should any one be astonished at this in consistency in the tone of the *Herald* s two articles? Has not the editor of that paper told us that schoolmasters are the most impracticable persons in the world?

A gentleman of this city who is intimately acquainted with Henry A Pierce of Boston, who, it is said, will probably receive the appointment of Minister to the Sandwich Islands informs us that Mr Pierce is a man eminently qualified for the position He resided for several years at the islands prior to 1849 speaks the language of the natives fluently is intimately acquainted with the character of the people and has full and exact knowledge of the Hawaiian trade Since his return to Boston he has been for many years connected with this trade, and through means of this and his former residence at the islands he possesses the kind of knowledge most useful for a person in the position for which he has been named

The true condition of the public debt is now given in the monthly statements, the accrued interest due being added monthly By the method of the former Secretary in making up the statements no account was taken of the interest until it was paid The bulk of the interest falls due in the months of January, May and November. The paying out of large amounts of money to meet the interest caused McCulloch s statements at those times to show an increase of the debt But by Boutwell s method, the interest due every month is added to the statement for that month which shows the exact condition of the debt The reduction will be more rapid now that the issue of Pacific railroad bonds is about to cease.

A Poor Changeling

—Ex-Judge Wyche of Washington Territory, made a speech at Walla Walla a few days ago, and if he showed nothing else he succeeded admirably in showing his talent as a political changeling Just two years ago Judge Wyche sought at the hands of a Republican Convention in that Territory a nomination for Congress At that time the reconstruction policy of Congress was fully developed. Negro suffrage had been enacted The new laws had gone into operation in all the rebel States All these measures Judge Wyche endorsed fully and even enthusiastically In a speech delivered before the Convention he expressed himself as ready to go even further in order to humiliate and punish the Southern people for their rebellion But the Convention didn t give him the nomination Then failing to appreciate his merits made a wonderful change in the Judge's principles He began to 'conservatize, and in a short time succeeded in transferring himself to the Democracy In his recent speech at Walla Walla he attacked the reconstruction measures which he so warmly supported two years ago at Vancouver, and had a great deal to say about the iniquity of equal suffrage which he argued for so eloquently when he wanted a Republican nomination It is difficult to imagine how a man who has pursued so crooked a course can have the face to appear before the public and make a speech It being dismissed from office Wyche has certainly cast his deserts Personally he is genial and harmless Politically he is a nonentity without any principles and ready to receive proposals from any party

The Road to Prosperity

—The prime want of Oregon is an intelligent diversified and well-developed industry Having this the State would at once find a new life infusing its animating power into all our relations and interests Diversified industry can support itself at home It can create wealth and establish a reciprocity of interests mutually advantageous to the whole people Agriculture may be made a basis of wealth but it cannot be the sole reliance In this State it has languished for want of a market and in its present undeveloped condition there is nothing else for our people to turn to We want capital and enterprise to open the way What we do must be set at work furnaces built forges kindled and looms and spindles set in motion Our farmers are apt to turn their attention too much to one department of their business Of late they have been directing their efforts to the production of wheat and neglecting to raise hogs, cattle and sheep Wheat is now worth but very little while cattle and sheep bring good prices If our farmers now had but stock to sell almost the present demand of the State would receive money enough to compensate for the failure of the grain market We are told but forget that prosperity is an diversified employments and to devote ourselves to one industry to the exclusion of all others

OREGON

Greenbacks have made their appearance on the table at Jacksonville Considerably ahead of us

Mr B Hall of Jacksonville has arrived at home from Washington city where he has been on official business has engaged in public and private business

The Salem paper says The injuries received by Hon W Greene recently being struck by a falling beam are of a more serious nature than was at first imagined He is still lying quiet however and it is feared that his injuries are internal and may permanently disable him If not prove fatal

The *Review* says In this county (Marion) the price of milch cows ranges from $25 to $60; two year old cattle $14 to $18 yearlings $8 to $12 per head Horses $50 to $200 A good work horse can be had for $100 Sheep are selling at $1 25 to $2 per head Hogs sell at from 2c to 3½c per pound

The Eugene *Journal* of last Saturday says George Crumpoy has purchased a lot of land of A J Heeney on the Coast Fork for the purpose of going into the hop business George Leasure has put a considerable amount of ground in hops near this place this year —The *Guard* says the McKenzie trail is now open and in a fair condition for stock The snow has nearly gone and grass is excellent —J G Mitchell of Pleasant Hill, has sold his valuable farm of 514 acres to Jos D Matlock for $3 000

The Jacksonville *News* says Owing to the light fall of snow in the mountains during the past winter the streams carrying their sources of supply in the snow ranges will undoubtedly be very low such is sure to be the case with Rogue river, and we would call the attention of our mining population to this stream The present season promises to be one of the best for river mining that we have had for many years and when we call attention to the fact that sixteen years ago the low bars on this stream paid a half ounce to twenty dollars a day working a rocker with but little if any work since it seems no idle boast to promise a rich thing to any one willing to try the adventure

The Sacramento *Bee* s Washington correspondent writes May 4d, It is understood that the Oregon Senators before their departure placed on file recommendations of Judge Deady of Oregon for the new Circuit Judgeship created by the late Judiciary bill for the Pacific coast The Nevada Senators and members have not expressed any public preference It is quite probable that they will favor Judge Sawyer unless they settle on a Nevada man say Hillyer or Whitman Sargent favors Sawyer It is not known that Cole has expressed any preference but he will probably also recommend your Chief Justice Sawyer is also, favorably known by Justice Swayne of the Supreme Court and is not entirely unknown to Grant As the appointments will not be made until Congress meets again it is too early to speculate on results Were it not that California has the Supreme Judge Field I am inclined to think Sawyer would walk over the course His character and legal ability are the main requirements locality is not an essential consideration

The Salem Times-Mercury —By the arrival of the steamer *Ocean Queen* it will be positively known where the Railroad Terminus on the Board will be established and before long an army of men, equal to that of the grand Pacific Railroad, will be employed who will build the road with all possible speed The Depot, without further doubt will be established at the well known house of ROBIN & FISHER, No 91 Front street, where the cheapest and most stylish Clothing Gents' Furnishing Goods and Dry Goods can always be had at such low prices that the most crabbed purchasers must be pleased

Many yearsago the writer of this notice said an invalid physician while visiting the Island of St Croix for their health experienced and witnessed many surprising and beneficial effects of the Rum there produced upon many of the invalids who were, like ourselves seeking health and upon inquiry and investigation obtained a full history of its medicinal virtues He was delighted and surprised and determined to make it the basis of a *Tonic and Restorative Medicine* The result of his labors was a glorious success for himself and suffering humanity for the celebrated HAMPTON BITTERS was thus made known to the world being an article of real merit founded on new principles, and relying wholly upon the vegetable world for its medicinal effects worked a rapid revolution in the history of medicine

HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

DATES TO MAY 17.

Washington News.

WASHINGTON, May 17.—A dispatch says Gen. Badeau, Second Secretary of Legation at London, left to night for New York, and will sail for his destination in the steamer on Wednesday. The impression prevails that Gen. Badeau's mission abroad means more than is covered by his present appointment.

A *Tribune's* Washington special says Public Printer Clapp has declared that he will employ colored men without regard to the action of the Printer's Union. He furthermore expects to put in some colored apprentices.

Commodore Parker will shortly issue a general letter of instructions to the army officers lately detailed for the Indian service, adding special instructions, that when required, officers shall be detailed to all Superintendents and Agencies except two of the former and seven of the latter to which Quakers have been confirmed.

There is much doubt of the legality of the order recently promulgated from the Navy Department, requiring the orders of Admiral Porter to be obeyed the same as if they emanated from the Secretary of the Navy. It has been decided that the accounting officers of the Treasury shall not be authorized to issue warrants on requisitions signed by Porter for the Secretary of War. To obviate these difficulties the President will appoint Porter Secretary *ad interim* in the absence of Horie; but the question then arises whether the President can make appointments *ad interim* without a removal from office, granting leave of absence or formally detaching him in some manner from the office.

The Secretary of the Navy is making arrangements to dispense with the Indian names of vessels, the provisions of the law requiring all steam vessels of the first class to be named after the States of the Union, of the second class after the rivers, principal towns and cities, and of the third and fourth classes as the Secretary of the Navy or the President may desire. Some officers object to changing the names of vessels which became famous during the war, because they will lose their identity and history.

A *Tribune's* New York special says the Ways and Means Committee obtained important evidence while examining the frauds upon the Government in the Custom House and elsewhere. The Committee predict that their report to Congress will be instructive.

One hundred and fifty pupils of the South Washington Sabbath schools proceeded to the Executive mansion this morning, and were received by the President in the East room, who expressed pleasure to meet so many cheerful faces. A large crowd of visitors thronged the ante room of the White House to day.

The commission of General Sickles, as Minister to Spain, was signed by the President to-day.

Wm. S. Wheeler has been appointed Marshal of Montana.

The President has directed a board of officers to assemble in New York on the 18th for the examination of Brevet Brigadier General Adam Badeau, first Lieutenant of the army for retirement.

CHICAGO, May 17.—A *Republican* special says Col. Alexander, present Postmaster at Washington, refused to vacate the office when Edmunds, the lately appointed Postmaster, presented himself, on the ground that no charges had been preferred against him, and under the modified tenure of office act the President has no right to remove him, but must suspend him on charges. The case will be submitted to the Attorney General, but Alexander will probably carry the matter to court.

New York Items.

NEW YORK, May 17.—The boiler of a dummy engine on the Coney Island Railroad exploded yesterday and badly scalded John Quinn, the engineer, J. F. Felton and R. A. Maples, firemen.

At St. Paul's Protestant Episcopal Church, yesterday, Bishop Littlejohn, who was present to administer confirmation, felt compelled by what he saw around him to utter a few powerful but kindly words against ritualism.

It is currently reported that the *Quaker City*, which sailed on Monday, cleared for Rio.

J. Russell Young's resignation as managing editor of the *Tribune* is accepted. Whitelaw Reid will act as Greeley's chief of staff.

Several Deputy Marshals, attempting to take possession of an illicit still in Brooklyn, were assaulted by a crowd of several hundred residents of that locality and the officers driven off without accomplishing their purpose.

In the trot at Fashion Course, to harness, Lucy beat American Girl in three straight heats. The best time was 2:25.

The jury in the case of Cyrus McCormick vs. the Pennsylvania Railroad to recover the value of baggage lost in 1862, returned a verdict for $1,660, to which the Court added an extra allowance of $500.

Proposed Methodist Union.

ST. LOUIS, May 17.—Communications are published between the college of Bishops of the Methodist church South, and Bishops James and Simpson as a deputation representing the Board of Bishops of the church lately in session at Meadville. They relate to a general and full reunion of the churches. The reply of Southern Bishops don't entertain the question of union as previous to the separation in 1844, but assert that fraternal relations must first be restored before such a proposition can be entertained, and that they cannot be restored except upon an overture made by the Northern General Conference upon the basis of the plan of separation in 1844, implying the abandonment of the position of the General Conference of Pittsburg in 1848, assuming that separation was secession on the part of the Southern church. The Southern Bishops deny that slavery was the cause of separation, and assert that it was only the occasion.

Financial Affairs.

NEW YORK, May 17.—A *Times'* special, speaking of the recent advance of gold says, under the administration and cause of retrenchment and the revenue collections, the premium on gold ought to fall and the public credit in all respects to be strengthened. Such a large, quick and unexpected advance as that of last month derranges business and values and works greatly to the detriment of the mercantile business of the country. There is no doubt that carrying out the ideas of Grant's inaugural, with a sound Treasury policy and proper Treasury administration would prevent these embarrassments and fluctuations and at the same time solidly establish the public credit.

Some "Herald" Yarns.

The *Herald* states that Senator Sumner called at the White House to see the President last week, but Dent, chief usher, having carried in his card, returned with the remark that he would have to wait fifteen minutes. Sumner said he would not wait fifteen minutes for Napoleon or any one else, and that when Grant wanted to see him he could send for him. With that he withdrew in a rage and told his friends that the White House is nothing but a military court. Congressman Shanks called on Secretary Fish on Saturday and was kept waiting an hour and a half and then left in disgust declaring that in the future the Secretary "might keep his damned old piscatorial department to himself."

The Cuban Insurrection.

Important intelligence is expected from Cuba during the coming ten days. Government detectives report from various ports along the coast, the movements of small suspicious looking crafts. There is no doubt that expeditions are still being fitted out and arms and munitions of war are being transported from the United States to Cuba, and to the Spaniards too.

Miscellaneous.

BOSTON, May 17.—The opening sales of single tickets for the National Peace Jubilee has commenced. One music store sent an order for 1,200 books.

Wm. Drabb, one of the persons taken from the schooner *Lizzie Major*, filed a claim which has been forwarded to the Secretary of State, for damages for imprisonment.

CLEVELAND, May 17.—On Saturday afternoon, three children were buried by the sliding of a sand bank, to the depth of several feet. The children were missed and search made. It was not suspected until Sunday evening that they had been overwhelmed by sand. Their bodies were recovered after being buried twenty eight hours.

NEW YORK, May 17.—Fred. Hawley, of Rochester, at the rink in this city, on Saturday, made the best time ever made on a velocipede fifty miles in three hours and fourteen minutes and thirty-nine seconds.

SAVANNAH, May 17.—Thomas Gibbs of this city has disappeared, leaving liabilities to a considerable amount.

ST LOUIS, May 17.—Orders from Salt Lake City for bacon, were received here to day, the shipment to be made by railroad.

A valuable Blackhawk stud was sent from here to San Francisco to-day, direct by rail.

PHILADELPHIA, May 17.—Pennybacker and Sibley's barrel factory burned this morning. Loss, $2,000.

Dales & Horns' woolen mills at the falls of the Schuylkill, were also burned. Loss, $50,000.

GLOUCESTER, Mass., May 17.—The new Town Hall, just completed at a cost of $100,000, was destroyed by fire yesterday. Insured for $40,000.

MONTREAL, May 17.—I. and M. C. Barney, large produce merchants of this city, have suspended. Reports place their liabilities at $125,000.

RICHMOND, May 17.—In a suit against the city to compel it to redeem small notes to the amount of $100,000, issued during the war, Chief Justice Chase decided that having been issued to aid the rebellion, they can't be redeemed. The Legislature which authorized the issue was a *defacto* Legislature. Had the notes been issued for loyal purposes, and not for the submission of the government, they would be liable to redemption.

BY ATLANTIC CABLE.

LONDON, May 17.—The papers generally comment on the critical state of affairs in Paris. It seems to be the general impression, however, that the French government has fomented the discontent and will adopt oppressive measures to say the disorder arising with some design.

A Paris correspondent of the *Telegraph* says the opinion is general in Paris, that Johnson was induced to make certain representations to the British government and was then to be thrown overboard by Grant's administration.

SOUTHAMPTON, May 17.—The corporate authorities invited Reverdy Johnson to a grand banquet previous to his departure.

THE WEST.

Single "bricks" in Montana are worth $12,500. They are tolerably plenty.

The crop of all kinds of fruit will be very large in Walla Walla valley this year.

There are twenty-six lawyers at White Pine whose cards appear in the *Inland Empire*.

The San Francisco *Herald* says about eight hundred people die of consumption annually, in San Francisco.

Sacramento made $60,000 by the railroad celebration, that being the amount expended by visitors at the city.

Cherries are among the luxuries of the San Francisco fruit markets—just now selling at one dollar per pound.

The Government pays $60 a ton for hay, and $12 a cord for wood in Montana. A Northern Pacific Railroad would reform that.

The Helena *Herald* gives an account of a great fire which occurred at that place on the 28th ult., by which ninety business houses and over forty dwellings were burned. Loss, $500,000.

On Thursday last Macondray & Co., of San Francisco, shipped on the Sacramento boat, an invoice of tea, to go by the first through train to St. Louis, ordered by James H. Gibson, a large tea dealer of that city.

Last year there were 4,300 tons of merchandise shipped into Montana Territory. This year, from the most available data, it is estimated that the shipments will reach 4,800 tons, an increase of 500 tons. Helena papers note the arrival on the 22d April of pack trains from Wallula.

Says the Walla Walla *Union:* From a private letter received from Hon. O. Jacobs, by a friend in this place, we learn that the newly appointed Judge will be here early in July. In the opinion of this community, he should come immediately and relieve the present incumbent, since he seems to be disgusted with Black Republican rule, the style the masses seem to like. The people of this county will not regret the change, nor care how soon it is effected.

Webster and Jackson Photographed.

Mr. Webster sat for his picture in the year 1849, in the art gallery corner of Fulton street and Broadway, opposite St. Paul's Church. He was the guest at the time of the Astor House, in which establishment, he was by the proprietors treated with the most princely consideration. He received the request to sit for his picture, after being informed it would only occupy a few moments of his time, with a prompt assent, and made no other remarks than were necessary to fix the time and place. Punctually to the moment and unattended, he was at the gallery. He was expected, and when he made his appearance his dignified presence, massive head, his large dark eye, and commanding political position almost paralized the then comparatively inexperienced workmen. His style of dress was also calculated to attract attention, the prominent object of which was a blue dress-coat ornamented with richly gilt buttons. Under direction he quietly took his seat, and was as kindly disposed as a well-trained child. It was more difficult in those days than now to take a picture, but Mr. Webster submitted with the greatest good nature to every request, and at the proper moment was as motionless as a statue. The picture, under such favorable circumstances, was soon obtained, and Mr. Webster, on being told that such was the case, his face brightened up with an expressive smile, and without other demonstration, except a formal bow, he left the gallery.

General Jackson's picture was taken at the Hermitage in the Spring of 1845. He was at the time a confirmed invalid, so much so that his death was a possible event at any moment. Against the wishes of his household, who were only solicitous for his comfort, he would know who called upon him, and against the positive advice of his attending physician, he persisted in gratifying these who had "come so far" by having his picture taken. On the morning appointed he caused himself to be dressed with especial care, and bolstered up with pillows and cushions. He was very determined in his manner, and would not listen to any denial. At this time his hair, once such a remarkable steel gray, and which then stood like a mass of bay-moss round his forehead, was soft and creamy white, and combed quietly away from his temples, and fell upon his shoulders. When the moment came that he should set still he nerved himself up with the same energy that characterized his whole life, and his eyes were stern and fixed and full of fire. The task accomplished he relapsed into a comparatively helpless condition. When relieved from pain he was pleasant and courtly, yet never seemed to be entirely satisfied with the restraints imposed upon him as an invalid.—*T. B. Thorpe, in Harper's Magazine.*

A long article in the Providence *Journal*, severely criticising Senator Sprague's recent course, closes as follows: "It is idle, and worse than idle to talk of this as a mere political or personal attack. It is an attack upon the good name of the State, or it is nothing. The people can no more submit to it with honor, than they can submit to a similar assault on the conduct of Perry and his associates at Lake Erie, or on the fame of Nathaniel Greene and his Rhode Island regiments in the army of the Revolution. The State has lost its ancient spirit if it does not utter its voice, and, if need be, lift its arm to crush a calumny like this."

There is a roofed house in Schoenbeck, Germany, more than a mile long. It is for drying brine pumped up from the salt wells. The sides are open to the wind, and it contains several sections running longitudinally, which are filled with brushwood, and over which the brine trickles and is dried by the prevailing wind and the sun. As fast as it trickles down it is pumped up again, and thus passed through all the compartments and after reaching a strength of 22 per cent of common salt the brine is boiled down in evaporating-pans.

Odds and Ends.

The King of Birmah rejoices in the possession of fifty wives and ninety children.

On the Chicago and Northwestern Railway, recently a train ran 91 miles in 98 minutes.

Typhoid fever of a type that baffles the greatest medical skill is prevalent in Philadelphia.

Unity, N. H., is evenly balanced. It contains a population of 450 males and 450 females.

A little boy near Quincy, Ill., recently hung himself because his mother angered him by speaking sharply.

An oyster was recently found in New Haven harbor which contained 293 pearls, ranging in size from a mustard-seed to a bird-shot.

The Mayor of Mobile recently married a colored couple. After the ceremony, the husband said: "Massa Caleb, you has forgotten something." "What is it, Aaron?" asked the Mayor. "Why, you ain't buss the bride."

The Prince Imperial of France has learned enough telegraphing to send a message from Paris to Lyons, inquiring the state of the weather. Whereat the eager Lyonnese operator [illegible] "Son of Austerlitz! Long live the Prince Imperial!"

The following is taken from an advertisement of Dr. X——'s liver-encouraging, silent perambulator family pills: "This pill is as mild as a pet lamb, and it don't go fooling about. It attends strictly to business, and is as certain as an alarm-clock."

There is a rooster in Augusta, Ga., which shelters a large brood of young chickens under his wings. A local paper says: "It has been seen several times earnestly endeavoring to lay an egg; and those who know this strange fowl best seem to think that it will ultimately succeed."

Dr. Wylie was once called to attend a member of the editorial fraternity, and the patient, on being asked if he hadn't taken something strange into his stomach, replied that he believed he had. "It must have been that glass of water—haven't been so imprudent before, doctor, for ten years."

The Alaska Seal Fisheries.

The following article from a Hartford (Conn.) paper relates to operations which took place in Alaska last year, but its details are nevertheless interesting:

New London claims the honor of having sent the first vessel, from the Atlantic coast to the waters of Alaska to engage in the fur seal business. This vessel was the bark *Pera*, E. Morgan master, owned by Williams & Haven of that city. Captain Morgan has recently returned home, overland, from San Francisco, and gives an interesting account of his operations and a description of the locality where the fur seals are found. He joined his ship at the Sandwich Islands in February last, proceeded via Sitka to the island where the seals resort, and arrived there on the 13th of April. Soon after he landed his men with building material, provisions, salt and nets, and hoisted for the first time the American flag on the island. The master hired some natives to assist, and made preparations for the season's work. Needing more supplies, the ship was sent back to Honolulu for additional supplies and lumber, which arrived later in the season. Some twelve or fourteen buildings for dwellings, stores and salthouses were erected along the shore, and in due time the taking of skins commenced. The men employed in this work followed the old Russian rule of killing only the males, and removing these back from the rookery before dispatching them, lest those coming in from the water should be alarmed and driven off by the blood or carcasses on the shores. The young seals, or pups, were never molested. The men report the antics of these little fellows, gathered in vast numbers, learning to swim and fish as very amusing.

The *Pera* party met with strong rivalry and opposition in their work from the employes of a San Francisco concern, who, having bought out the stock of goods and vessels belonging to the old Russian American Fur Company, claimed to be their successors in the fur business of the territory. They tried almost every means of annoyance, but soon found that our New England seamen were not to be coaxed or driven away.

The islands known for many years as the home of the fur seal are two in number, and are situated inside or north of the Fox or Aleutian islands, about forty miles apart and 200 or 300 miles from any other land. They are triangular in shape, the largest about twenty miles long, east and west, the other about two thirds the size. The so

me years ago, while journeying through central part of Ohio, a terrible snowstorm occurred, which so obstructed the road several passengers, including myself, were obliged to find accommodations in a small wooden tavern, situated near by. After satisfying our "inner man" with a warm supper, we all congregated around the bar-room fire, and soon were engaged in smoking and telling stories, and enjoying ourselves generally.

Among us was a middle-aged gentleman, apparently a merchant, who remained a silent listener to the conversation the first part of the evening. But soon our vocabulary of stories was exhausted, and the gentleman was kindly invited to revive the drooping conversation by telling a story. He readily accepted the invitation, and told the following, which I leave the reader as near as my memory will permit.

About twenty years ago, he began, I was connected with a wealthy firm in St. Louis, and desiring to visit New Orleans, was intrusted with a considerable sum of money by my employers, to be conveyed with all possible haste to a New Orleans merchant.

Early in the morning I got on board the boat, and leaned listlessly over the railing, watching the inhabitants as they went forth to their occupations. As I had not laid in that position long before the steamer moved slowly away from the pier, and soon the city was entirely lost to view.

During the day nothing transpired to render the voyage disagreeable, and as the shades of night began to hover over the water, I retired to the saloon, where several gentlemen were engaged in a rather stormy discussion on politics. Soon I became entangled along with the rest, and gave my particular views on political affairs.

While conversing, I thoughtlessly mentioned the fact of my having a large sum of money in my possession. Nothing further was said about it at the time, however, but I thought flashed upon my mind that in a crowd of desperate and unprincipled men as were my associates, it was not the right place to tell such a secret, which kept me rather backward in my conversation during the remainder of the evening. I retired soon after, fully resolved to be more prudent in the future.

The next day I made the acquaintance of a gentleman who professed to be a Methodist clergyman. He gave me several tracts, and soon we entered into a conversation that resulted in quite a friendly intimacy. He appeared to be well versed in his profession, and altogether a very agreeable companion. After conversing on the various topics of the day, the conversation naturally turned to the previous evening's discussion. Not being very well pleased with what had occurred at that time, I attempted to change the subject, but was prevented by my friend's remarking:

"You were very indiscreet, B , in revealing the fact that you had money in your possession. There are men on this boat who would not hesitate to rob you if an opportunity presented itself. I advise you to be more careful hereafter."

I thanked him for his kind advice and assured him that I intended to keep aloof from all suspicious individuals.

To this he made no reply, but rose from his seat, and with cane in hand walked slowly away to his room, leaving me to my own reflections, which were that I had a good companion and a valuable friend in the preacher.

On the journey I made the acquaintance of several gentlemen, but none that I valued so much as the clergyman. Nothing occurred of importance until this, and we arrived late in the afternoon at New Orleans. Not being known well in the city, my friend offered to conduct me to a hotel where my expenses would not be very heavy, and as I wished to avoid as little notoriety as possible, I thankfully accepted his company, and we walked up the levee several blocks, when he gave me the necessary direction to take, while he was obliged to go another way.

After parting with him I wended my way to the hotel, which was situated a little off from the busy thoroughfare. It was a large building, and had a very old and dingy appearance, and, in fact, did not look very inviting to the traveler; but as I did not expect to stay only a short time, I concluded to accept the accommodations, as they were much cheaper than could be had elsewhere.

I entered the bar-room, and after registering my name and getting supper, I asked to be shown to my room, and was conducted up flight of ninety old stairs, to a small, square room, where my guide left me. Proceeding to examine the apartment I found that it contained one small window, which looked out on a dark and narrow alley. The furniture consisted of a bed, a couple of chairs, a stand and a heavy kitchen cupboard, some three feet high and about six feet long, with strong side doors. The appearance of the room did not disperse the gloomy feelings of distrust that I experienced when I first saw the building. However, I determined to make the best of it now near at hand.

I noticed, before coming to the room, that dark masses of clouds were gradually gathering over the city, and the distant rumbling of thunder, with sharp quick flashes of lightning, illuminated across the western horizon denoted an approaching storm.

Being very tired, I immediately disrobed myself, jumped into bed, and was fast falling into a dreamless slumber, when a low scratching sound attracted my attention. It seemed to come from one place in the room, but I could not tell exactly where. My nervousness increased as the sound continued, till I determined to ferret out the cause of the disturbance. I jumped from the bed, and looked cautiously around the room, for some time, but could discover nothing. The sound had entirely subsided, and nothing could be heard save the wind, which whistled mournfully by the window, or the distant rumbling of the thunder, which denoted the approach of a storm.

At last I concluded it must be the window sill or some such object driven by the force of the wind against the house. Arriving at this conclusion, I again jumped into bed, and after a long time vainly endeavoring to sleep, but finding it impossible, I busied myself watching the expiring flame of the taper, when a stray gust of wind whistled through the broken window and extinguished the object of my attention.

The storm, which long had been threatening, now burst forth in all its wild grandeur. The rolling thunder grew louder at each successive report, vivid flashes of lightning played across the heavens, illuminating the room with the lurid flame, so that every object was plainly visible. the next moment all was darkness followed, so impenetrable that the most prominent objects were perfectly hidden to the eye. While lying there, looking from under the bed clothes, trembling with fear, the scratching sound commenced with renewed vigor, making the room sound with the peculiar noise which had long before aroused me.

Large drops of perspiration stood upon my brow, and rising to a sitting posture, I tremblingly gazed out into the darkness, trying to discern the object as the lightning flashes permitted the room.

At that moment a livid sheet of radiance appeared before me, and in an instant I beheld a man's arm protruding from the cupboard, while the hand grasped, as if for support, the swinging oaken door.

I realized my situation immediately, and springing from the bed, I grasped a heavy chair which lay near, and brandishing it over my head, breathlessly awaited for the lightning again to appear. It was but a moment when a living flash of flame quivered through the air, revealing the head and shoulders of as hideous a looking man as I ever before beheld. The left hand clutched tightly a large pistol. The hand was uplifted, and our eyes met. As quick as thought I bounded forward for the rascal, yelling—

"You infernal villain!"

The only answer I received was the sharp report of a pistol, the ball whistling by and striking in the wall near me. The next moment the heavy boot came down with a terrific crash on the rascal's face, making him groan something that I was unable to understand, for a loud peal of thunder drowned the sound.

I fiercely struggled to free himself from the cupboard, but by my repeating the blow, was obliged to push back into his hiding place.

With a movement certainly commendable, I

rice and sprang upon it, while the cursing which came from within could scarcely be heard above the raging of the storm, which kept up a constant roar.

Undressed and trembling with fear, for one long hour I sat yelling at the top of my voice for assistance, but was unheard on account of the raging elements without.

At last the storm gradually abated and my cries were heard by the Irish chambermaid, who came running into the room, but on seeing me in such an unenviable position, she frantically ran down stairs yelling "murder" with all the vehemence her vigorous lungs would permit. This brought to my room a crowd of excited individuals, all eager to find out the cause of the disturbance.

I explained the case as well as my shattered faculties would permit, but was frequently interrupted by the blasphemous harangue which the robber was holding forth within the cupboard.

After concluding, I jumped from my seat and stood a few steps away breathlessly waiting, while my friends, by the aid of a dim lantern, dragged forth, hatless and bleeding, his locks dishevelled and his face all bespattered with blood, the would-be murderer—my trusted friend the preacher.

I recognized his face immediately, and, springing back, threw up my hands in astonishment. The villian gazed steadily at me, with a sickly smile, which said, plainer than words, I was not the first victim of misplaced confidence.

A person was immediately sent to inform the authorities, who took him into custody, and afterward sentenced him to a long term in the State penitentiary.

After the excitement had somewhat abated, I retired and slept soundly for the rest of the night, and was permitted to depart the next morning, thankful that I had escaped unharmed from the murderous rascal, and fully resolved never again to place confidence in an entire stranger, whatever profession he might represent.

THE WILLAMETTE FARMER.

Devoted to Agriculture, and the other Industrial Interests of the North Pacific Coast.

RECOMMENDED BY THE STATE AGRICULTURAL SOCIETY.

THE NECESSITY WHICH HAS SO LONG EXisted in Oregon for a journal where Farmers and other laboring men could meet and discuss their mutual interests, is obviated by the establishment of the WILLAMETTE FARMER.

This paper will advocate and labor for all interests that will advance the prosperity of the Farmer and Mechanic, and will have in view especially the encouragement of the cultivation and improvement of the soil, and the agricultural development of the State; fostering every branch of mechanical and household arts calculated to increase the happiness of home life; and extending and facilitating the various branches of Agriculture, Stock-Raising, and Mining and mining interests.

Especial attention will be paid to the department of

Domestic and Eastern News,

And the subscribers to the FARMER will receive each week a careful and complete synopsis of all the news of the State and adjoining Territories, compiled from our exchanges and other sources, as well as a summary of Eastern telegraphic news,—thus furnishing our readers a complete

LEAVE OFF SMOKING AND CHEWING THE POISONOUS WEED, TOBACCO

ORTON'S PREPARATION!

ESTABLISHED 1866.

One box of Orton's Preparation is warranted to destroy the appetite for Tobacco in any person, no matter how strong the habit may be, in any case the money will be refunded, and harmless to the system, and will be able to break off the use of Tobacco by the mere exercise of the will. Such is the confidence the proprietor has in the power of the Preparation to perform what it promises, that he will pay a bonus of One Hundred Dollars to any person who will make oath before a Justice of the Peace that they have used the Preparation according to the directions, and have been unable to break off the use of Tobacco. Thousands have used it who are willing to bear witness to the fact that Orton's Preparation completely destroys the appetite for Tobacco, and leaves the patient as free from any desire for it as before he commenced its use. The Preparation acts directly upon the same glands used by Tobacco, and through the blood, thoroughly cleansing the poisons from the system and thus allaying the unnatural cravings for Tobacco. *No more hankerings for Tobacco after using Orton's Preparation. Perfect cure warranted.*

The time taken to allay all desire for Tobacco by the use of the Preparation varies *slightly* in different persons, the *average* time being about *three days*. Some have no desire for Tobacco whatever after using the Preparation *Two days.*

The *Health* and *Purse* of every Tobacco user in the country calls loudly AGAINST THE USE OF TOBACCO

RECOMMENDATIONS

The following are a few selected from the multitude of recommendations in our possession:

We the undersigned, hereby certify that we have used Orton's Preparation for the purpose of destroying the appetite for Tobacco, and can assure those who are suffering from this habit that Orton's Preparation will certainly destroy the appetite for Tobacco *quickly* and *permanently*, and without any bad effect upon the health and without creating an appetite *ever for the Preparation or any substitute.*

W. P. Heald, Bangor, Maine; J. Moody, Southport, Indiana; E. W. Adkins, Knoxville, Tenn.; John Merrill, Bangor, Maine; J. Bunch, Springfield, Tenn.; W. D. Harrington, West Point, Georgia

From Samuel Cassidy, Editor Journal & Argus:

PETALUMA, CALIFORNIA, Dec. 14, 1868

For about twenty years I had used Tobacco in its various forms as I do the past eight years had been an inveterate smoker. Becoming satisfied that the excessive use of this narcotic was seriously impairing my health, I determined if possible to check myself of the habit. Hearing of Orton's Preparation for destroying the appetite for Tobacco, I sent to Portland, Me., for a box of the medicine, which I received through the mail on the 17th of November. A month has not elapsed and yet the medicine has effectually relieved me from any yearning or desire to use Tobacco in any form. The Preparation is not more difficult or unpleasant to take than to commence chewing gum. I conscientiously believe the Preparation will have the promised and desired effect in every instance where it is given a fair trial. Upon that belief and from an honest desire to assist those who wish to break away from the slavish appetite for Tobacco I offer this testimonial.

SAMUEL CASSIDY.

☞ *Beware of Counterfeits and all articles purporting to be like this, of the same name or otherwise. The great popularity of Orton's Preparation has induced unprincipled persons to attempt palming upon the public counterfeit and inferior articles. Purchasers will please order directly from the Proprietor, or his duly authorized Agents.*

The price of Orton's Preparation is $2 per box, or three boxes for $5, sent by mail to any part of the country securely sealed from observation with passage paid on receipt of price

How to send money by mail—Enclose the amount in a letter, seal carefully, register the letter and take a receipt for it of your Postmaster. Money sent by mail as above directed at my risk. Address

HIRAM SMITH'S

Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.

It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS, &c., as has been sufficiently demonstrated during the few months in which it has been brought into public notice. The proprietor is so fully convinced of its INFALLIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.

It has cured cases of FIVE, SIX, NINE, FIFTEEN, and even EIGHTEEN YEARS' standing in Hamilton, Linn county, Oregon, and its vicinity, to which the following persons will bear witness:

E. B. MOORE, NATHANIEL BELL,
A. L. WALLACE, G. R. WARD,
Mrs. MONTGOMERY, JOHN M. HOLLOWAY,
W. D. PORTER, ROB'T RAMSEY,

And others in that vicinity

Persons afflicted with the distressing scourge of diseased eyes are advised to give this remedy a fair trial on the NO CURE, NO PAY and NO INJURY plan.

Prepared by SMITH & ROACH,
Harrisburg, Oregon.

"HADFIELD'S EQUALIZER."—We made a visit to the office of Dr. Bodman to witness the operation of "Hadfield's Equalizer"—a new remedial agent, or rather an instrument for applying an old principle to new purposes. It consists of a number of cases or cups to be attached to the person, according to circumstances, and an exhaust air pump. If it be desired to operate upon an arm, for instance, the arm is thrust into a case, fitted at the end with a rubber band to fit the arm closely. The air is then exhausted from the case, slowly and cautiously, as the patient can bear it. As everybody knows, the effect is to create a pressure of blood to the arm thus fixed in the vacuum. The principle is the same as in "cupping;" but the difference is that the instrument can be applied to an entire arm or leg, or to the whole body. Whatever remedial effect can be produced by thus inducing an unusual flow of blood to a limb or affected part, may of course be easily and speedily realized by the use of the "Equalizer." It is claimed that its use may be made very effective in all nervous disorders, chronic affections, etc., that it brings a greater supply of blood and nutrition to all weak parts, thus creating new life and tone, and health and strength in those parts. It breaks up congestion and inflammation by equalizing the circulation throughout every part of the system. It not only gives *tone*, but the arterial circulation, but also to the venous and nervous, thus aiding and assisting in carrying off the waste matter from the system, as well as new matter to every part of the human body. The instrument has been in use for four years in Cincinnati, and is now being rapidly introduced into the medical institutions of the country. Dr. Bodman received the apparatus only by last steamer, but he has already applied it in a number of cases with results which promise well for its utility. The curious or those desiring treatment, should apply to Dr. Bodman at No. 141, Front street.

THE CENTRAL SCHOOL.—A friend of ours who was, himself for many years a teacher, has undertaken to visit all the schools of this city during the present quarter and promises to give us his opinion of each school. He visited the Central School yesterday, and he says of it:

"The Central Public School of this city, under the charge of Prof. R. K. Warren, assisted by Mrs F. D. H——n in the intermediate department, Miss E. Holman in the advanced, and Miss Taylor in the primary, is every way worthy of public confidence. The appreciation of the public is evinced by the large attendance, which is daily increasing. Prof. Warren, assisted by Miss F. Holman, was for a long time in charge of the H—— street School. Under his supervision that school obtained a just celebrity, excelled by none in the city. He is bringing to the Central School all the ability, tact and character, which raised the former to such a high level of prosperity, and is adding new laurels to his—— as an instructor of youth. It is not invidious to say that, in the management of a school room he has no—— while his system of instruction is not superficial, but thorough and complete. The Central affords a favorable commentary upon the system itself. We would urge parents and guardians, and tax-payers, all to visit these schools, having no doubt that the—— so specially extended to us, will be more gladly—— to parents and tax-payers. Those who want to see the order, industry, and deportment of the future ——, had better spend an hour or two some day, at the Central School of this city.

LOST BAGGAGE.—Thomson & Kennedy, of Marion county, have on exhibition at Wilcox's sash and door factory in this city, a new patent gang plow, which is said to be an excellent invention.

Mr. Chas. W——nd, it is stated, will during the present season erect a brick building, fifty by eighty feet, between Alder and Morrison streets, west side.

We learn that a movement is on foot to organize an artillery company, or at least a firing detachment. Should it be——, the State's cannon, now standing on the Plaza, will be turned over to the company for use and ——.

Four hogs were hauled from the Willamette ——day, to the *Shubrick*—one of which ——4,000 pounds, and each of two others weighed ——.

A——y who has recently traveled extensively in the——n valley, says the wool clip of this spring will be heavy.

The bark *James A. Potter* sailed from San Francisco for Portland last Thursday.

MASONIC MEETING.—Pursuant to previous notice, the ——of the City of Portland met at ——, Monday, May 17th, at 8 o'clock P. M., for the purpose of taking the preliminary steps and arrangements to celebrate the coming 4th of July.

The meeting was called to order and on motion A. B. —— was chosen Chairman, and J. F. McCoy Secretary.

The Chair then appointed a committee of ——, consisting of Messrs. Alexander Dodge, Chas. ——, and J. F. McCoy, who were instructed to give notice of the adjournment of the meeting, and to turn out on the——on Thursday ——, also, that the committee ——the services of a band of music for the occasion and on motion the meeting adjourned to meet again on Thursday evening next at 8 o'clock.

A. B. RICHARDSON, Chairman.
J. F. ——, Secy.

ARRIVAL OF THE *Geo. B. Wright*.—The steamer *George* ——, Commander, arrived at 5 P. M., from Victoria.

Left Victoria Saturday, May 15th, at 6 o'clock P. M.; arrived at Astoria May 16th, at 10 P. M.; arrived at Portland May 16, at 5 P. M.

Mr and Mrs J Kamm and boy, N C Neuman, Capt Robb, Miss M Hawke, D Wheelan, E Wyatt, Wm Engelline, Mrs Beeslin and child, Mr ——, Capt Gilliman.

The vessel consigned to 130 tons coal, Portland Gas Co; 25 bbls English ale, McCraken, Merrill & Co; 1 —— P Mancinotte; 2 metal wheels, Oregon Iron Co; 20 bags moulding sand, Willamette Iron Works; lot of old junk, H L Pittock & Co; 8 pkgs ale, John West; 1 box plaster.

PARK BLOCKS.—At the last meeting of the Council, the Mayor reported the purchase of the Park Blocks from the heirs. The guardians of the heirs value them at the value assessed in the partition two or three years since, with legal interest added. There are three blocks, 80 feet by 200 each, between Morrison and Stark streets. All the blocks of the Park Blocks belong to the city. It is necessary that the first meeting of blocks should be purchased to open Park street to the South extension of the same. The survey of Park street will very shortly be completed, as it is now desirable, and the Council desire that no person in section should object to the matter, lest, the owners of the Low—— blocks should pass into hands either not willing to sell or disposed to make the price a larger price than now asked.

WARNER—LOOK OUT FOR SNOWSTORMS.—As the result of ——extending through several years, a number of men engaged in boating or hauling, state that the rising of the river by back water of the Columbia, is one of the——signs of showery weather. Nobody need look for ——d dry weather at Portland, while the river is rising. It has often been observed that if the water rises——or at a stand, the weather would be dry and often warm. But it should begin again to rise, the weather would follow almost invariably. We do not doubt but there is quite as much in this sign as in any of the almanac predictions; if it be reliable, our ——weather is not over, by a long chalk, for the river is still rising.

WILL SPEAK FOR GARFIELD.—We learn that Hon. J. H. ——will be requested to address the people of Clarke county, at Vancouver, on some day this month, upon the ——topics of the day. Judge Smith, of the same law firm, will succeed in large audience at Vancouver one evening last week. The *Register*, in speaking of his speech, says: "Many ladies were present, and his reception was ——ve and his speech frequently cheered. The Judge made some telling points, and drew many apt comparisons. His compliment to the civil administrative ——f Washington, Jackson and Grant was peculiarly ——as well as just, and showed a thorough understanding of those great men."

A TOM-TOM SNIPPED OUT.—The Seattle *Intelligencer*—by the way, Seattle is a rival terminus—says: "It is rumored that the new mill at Tacoma is to be removed to a more——ated locality. The depth of water in front of the new 'city' is such that no bottom can be found. The——machinery, which arrived there a few weeks since with the machinery for the new mill, is unable to find ——." That is roughish on the Tacomanic, and we submit that it is very unkind in the settlers to thus wipe out the chances of the "city" as a terminus.

A VERY UNFOUNDED RUMOR.—We have several times, lately, heard a rumor that Stark, the actor—formerly ——is expected to come here for the purpose of playing a——engagement. We have not been able to find anybody who knows anything about it, and we doubt if the——would not be more surprising to Mr Stark himself than to anybody else. At last accounts, Mr. Stark was lying——dangerously ill at Virginia City, Nevada.

BY GRAPEVINE.—The Democrats of this city are buzzing it——that they have news that Judge Dennison, of Puget——, has declared for Governor Moore for Congress. This piece of news came by grapevine—a monstrous crooked one, too—from Olympia. There is not the——ity that the vinegrain has a particle of truth in it, as Judge D.——son declared immediately after the ——in favor of Garfield.

ONE FINE THEATER.—This evening the fine domestic drama of "The Old Guard," will be performed, in which Mrs. Judge will appear as Melanie, and will sing "How can I leave thee," and the Marseillaise. Mr. Vinson will take the part of Haversack, of the Guard Imperial. The——e will close with the laughable farce of "The ——A. Bridegroom," with Barry as Daggery, and Miss —— as Georgiana.

——.—It is probably not necessary to tell anybody that both ears, that we had a glorious thunder shower here yesterday afternoon. There are, however, a great many dead people in this country—we know they are dead,——they never hear anything good of themselves——and to such we write. The shower which followed was——d throughout the evening.

ANNEXATION MEETING.—The meeting at the Council —— last evening to take preliminary action in the matter of celebrating the 4th of July, was so thinly attended that it was thought best to postpone all definite——ate till a fuller expression of the people could be had. Accordingly the meeting was adjourned till ——evening.

SALE OF REAL ESTATE.—On Saturday last Mr A. B. Rich——sold at referee's sale, lot 8 in block 114, for the sum of two thousand dollars. It is situated on the corner of Taylor and First streets.

GOOD METAL WATCHES.—The new style gold metal ——introduced on this coast by C. E. Collins & Co., are said to give very general satisfaction. They are cheap and yet good looking, and good time-keepers—three essentials. Consult the company's new advertisement.

THE WEST

The shipment of coal from Nanaimo last month was 1,372 tons.

Harvesting has begun in California. The telegraph reports that fields of barley are now being cut.

The Marysville (Cal.) *Appeal* begins to announce that the crops will not be as large as it had previously announced.

The best quality of lumber turned out in White Pine, is now selling, both in Shermantown and Hamilton at $200 per thousand feet.

The word "crimp" appears very frequently in the Victoria papers. It is used to designate a person who decoys sailors away from service.

It is said to be only 200 miles from Corinne on the Union Pacific Railroad to Boise City. Corinne has a population of about 1,500. Bear River valley is claimed for ranches a distance of twenty mile on each side of the town.

Farming in the Payette Valley, Idaho, seems to be more prosperous than on former years, and the prospect for an abundant yield is excellent. It is estimated that in the valley alone 1,750,000 pounds of grass will be produced this season.

Says a Victoria paper: "An invoice of goods, shipped from Edinburgh to a firm in this city, came to them yesterday *viâ* by the American Consul at that port, the Consul and the shippers believing this to be American Territory. Fact!" Smart people!

The Eberhardt Company at White Pine has sold to New York capitalists one-half of what is known as the Eberhardt North mine for $500,000 in gold coin. The company refused to dispose of more than one-half, because they believe it will develop as rich as the Eberhardt South.

Says the Boise *Statesman*: A private letter from Washington informs us that General Cartee, late Surveyor General of Idaho, has been appointed supervisory architect of the assay office and penitentiary to be erected here. Mr J M Blossom, it is reported, has been appointed disbursing officer for the same.

VARIETIES.

An Illinois clergyman has resigned his pastorate because he was unable to prevent the members of his church from dancing.

Alexander Dumas, *pere*, is living with a young English girl, and spends for her nearly every sou he receives from his publishers.

There are in Great Britain 5,288 coal mines. Their product in 1867 was 104,500,480 tons, of which 277,176 came to North America.

A Kentucky editor, in announcing himself as a candidate for city clerk, states that he will devote his fees to sustaining his paper.

An irritable man having been disappointed in his boots, threatened to chaw up the shoemaker, but compromised by drinking a cobbler.

In the Goodman, Mississippi, burying ground is a simple shaft of white marble, bearing the inscription: "Here lies Jack Shillicat, an old bachelor."

The London *Star* says that Robert Browning's new poem, "The Ring and The Book," is "incomparably the greatest work of the greatest living poet."

The Richmond *Enquirer* says the papers throughout Virginia, at every point where troops have been stationed, refer to their departure in kindly terms.

The New York *Revolution* wants married women to retain their maiden names. Let it also insist that all married women support their husbands; after which marriage will increase in popularity.

A Kentucky paper mentions a man who claims to have once traded horses with Ulysses S. Grant, and to have lived neighbor to him in Missouri, and yet is not going to apply to him for an office.

ONE POUND of *Kane's Condensed Soap*, dissolved in boiling water makes FOUR GALLONS of very superior Soft Soap.

"THE BUNNELL HAT."—This is the coolest Hat that has ever been introduced in this market, and is very much in demand in all tropical climates. The price is low, and is for sale at MAUSSDORFFER BROS, corner of Front and Morrison streets.

PEOPLE SHARE—not with fear as to the future of Portland, but with the *Ague*, which can be cured in six hours and *no return* of the chills or dumb ague or its kindred ills, by using our celebrated and sure *South Carolina Ague Cure*. It is sold at the reasonable price of $1 00 per bottle. Call at "The Oregon Dispensary" for your SPRING MEDICINES, for they are all pure, fresh and *cheap* and will be vouched *for* by *the* most eminent of the Medical Faculty in the city. Everybody patronizes the "Oregon Dispensary" in consequence of the above fact, and it requires *five* assistants to attend to the wants of our patrons. LORYEA & KALLENBERG.

ESDAY MORNING, MAY 18, 1869.

"Bewildering."

other day the Salem *Unionist* printed se, crapulent and vituperative tirade, ed against Governor Woods and Treas- Cooke. The Governor was assailed for onvening the Legislature in compliance the demands of the Democracy, and an ipt was made to impeach the honesty of Treasurer for not properly keeping the funds. An article like this, appearing paper professedly Republican, would ally please the Democratic organs tity. Accordingly the *Press* took the er up and published another vituperative le, interlarded very extensively with ations from its prompter, the *Unionist*. latter pretends that the *Press* misunder- l its article, and responds with the fol- ng paragraph, which is certainly the most ordinary confession that a newspaper made against itself:

e *Press* seems not to understand the drift of rticle that appeared in the *Unionist* last on the subject of our State finances. We qually confused after reading the comments e *Press*, *and have failed to hear any one of either of the articles, who was not bewil- l.* The fact is, a newspaper article is stupid ense if it fails to provoke some discussion as real meaning. When the point is discover- is generally appreciated.

his immaculate organ, which sets itself as a censor of the conduct of the State ers and presumes to advise and even to ate the course to be taken in State affairs, confesses its own imbecility and admits no one could read its article without be- "bewildered,"—we suppose by its false- d and nonsense. The paper which talks his way truly has a high appreciation of duties and responsibilities of journalism! at are its utterances but the disgusting tions of chronic inebriety? Such would be suffered to pass by all sensi- people as the idle wind which they heed e it not reeking with fumes too odi- to be tolerated.

P- -f- Railroad Fares.

ything talking to fares and transporta- by mail across the continent must be of in Oregon. We therefore present the owing from the San Francisco *Bulletin* on subject of low fares and immigration:

he published rates of the charges on Pacific Railroad does not appear the hope ow fares; but there is good reason to this is only a temporary arrangement. We m that the Central Pacific Company has petitioned with the Union Pacific for an early uction of first-class fares to $100 in currency n Chicago, second class fares to be raised in a esponding ratio—say not to exceed $50 in cur- cy. As first class fares from Omaha to New k, via Chicago, are $40 in currency, a through et would cost only $140—or say $105 in gold. is would be cheap indeed for a trip of over 3, miles in six days, and would certainly have mense effect in attracting population and capital he Pacific. Freights will also be put at the t possible rate when the Union Pacific will agree and with the scale on the Central as low as the Eastern road, California will have the large share of the carrying trade of all the interior trade ch lies nearer our shores than to those of any at market east of the Mississippi.

The *Bulletin* states that the officers of the tral Pacific Company openly declare that y mean to pursue such a policy as will in- ite immigration, and that it is already proba- that immigrants will be brought through Omaha as low as $30 in currency. Cer- ly no one can complain if the reduction ges the fares down to anywhere near this ure. But some time will probably elapse ore the two companies adjust the business l get ready for extensive operations.

In General.

The President has appointed some well ed- ted colored men to represent the United at negro governments. To this the democracy take exceptions. They evidently slighted. No doubt they would feel hon- d to receive such appointments. They t this. While Republicans do not. Our ghbor of the *Herald* is rather more exer- d on this subject than any one else we e h- d of.

The whole people on the west side of the r at valley, from Corvallis to Portland, very much interested in securing a daily il service, and at many places they are ting the matter by petitions to the De- tment and otherwise. Post Agent Un- wood informed us a few days ago that he uld use every exertion to have this service blished. We feel confident that our Sen- rs will also take hold of it and use their in- nce to secure it. They will both be here short time, when the case will be laid be- them.

The first rolling mill in Michigan was buil E. B. Ward, about fifteen years ago. It about $30,000, and employed fifty-five n. The works which have grown up about t little mill, as a starting point, are now th $2,000,000, and give employment to re than one thousand men. They have lt up a large and prosperous community, l furnish a most valuable local market for ts of agriculture. This is a single ple of what manufacturing enterprise do. It is an example of what ought to be e in every county in Oregon.

The Colonies of Great Britain besides ish Columbia are grumbling about their n of government. It is stated that dis- ches have been received requiring Prince ard's Island to pay the salaries of its ernors for the future. Commenting on , *Ross' Weekly*, the annexation organ, s: "If we must pay them, let us elect vernors from among ourselves. We want lunkeys from across the water, as Gover- , who have no sympathy in common with people, and who are simply the tools of ming Street."

The Emperor of France has addressed a er to his Minister of State, directing him repare a bill for presentation to the Legis- ve body to make provision for the celebra- of the 15th August next, the centenary date he birth of the first Napoleon. The letter ins: "On the 15th August next, a hundred rs will have elapsed since the Emperor oleon was born. During that long period ny ruins have been accumulated, but the nd figure of Napoleon has remained up- ding. It is that which still guides and ects us—it is that which, out of nothing, made me what I am."

correspondent of the San Francisco s telegraphs from Salt Lake, May 9th, the Chicago men at that place "have held entirely to themselves. Their drum, s are everywhere, and they are working fatigably. One thing I must impress n the merchants of San Francisco as an lute necessity: They must arrange their of prices upon a currency basis, if they to succeed here. I have met but two Francisco business men at Salt Lake —Mr. Carr, representative of the Rus- and Erwin Co., and Mr. Merrill, repre- ative of Swain & Co., crockery mer- ts. The latter has sold a large parcel of goods, the former has not been so successful. Chicago has been offering goods at the same rates in currency that San Francisco demands in coin, with a discount of from thirty to forty-five per cent.

California papers continue to assert that President Grant will visit the Pacific coast this summer. Grant is, we believe, the only President of the United States who was ever in Oregon or California, and no ex-President ever visited the Pacific coast.

The Sandwich Islands.

For some cause not fully explained, the Legation to the Sandwich Islands has not yet been filled; but it is now reported that a Boston man will receive the appointment. It is supposed that this is in compliance with the representations and wishes of the American Board of Missions, which claims to have special knowledge of Hawaiian affairs. It is well known among all those interested in the Pacific trade, and in our relations with the islands, that those relations are of the most delicate character. British influence predominates, and the King is represented as being strongly prejudiced against everything American. Our people at the islands say that official intercourse between our Government and that of Hawaii has not been conducted on our part with tact and judgment, and that of late years the American representative has constantly been overmatched by English intrigue. Not long ago an elaborate letter from Honolulu appeared in the San Francisco *Bulletin*, in which the writer reviewed the situation of affairs and urged that our Government was likely to prejudice its interests at the islands still more by continuing an importunate policy. The better way was to let the Hawaiian Government judiciously alone. The American Board of Missions thinks it can suggest the right course to pursue, and the report that a Boston man is to be named for the place indicates that the appointment will be made in deference to the suggestions of the Board. To this organization the Hawaiians owe their civilization, and this fact may incline the President to the step. But it is supremely important that the Minister shall be a man who is well acquainted with the interests of the Pacific trade and disposed to promote them.

Poems by C. H. Miller.

The San Francisco *Bulletin* gives Mr. Miller's volume of poems the following notice:

Oregon boasts a poet! Not a mere doggerel-maker, but a real, live, wide awake poet. C. H. Miller appears in a modest looking volume, with the apostolic title of *Joaquin et al*; and while this title was rather too crude to enable us to proceed very confidently upon his merits, it gives us the right to say that they are far above the level of a good deal that comes to us with the sanction of the great publishing houses of the East. Mr. Miller is certainly a novice. His muse is rustic, uncouth, and at times rude of speech. She talks bad grammar, indulges in mixed metaphors, and outrages the metrical proprieties. She would hardly be tolerated in polite society, so given is she to the manners of the backwoods. But we are tolerant of the *gau cherie* of one who comes to us with a genuine message, and delivers it in the spirit of truth and earnestness. The author of this volume is something more than a phrase-coiner. If he is denied the divine afflatus, he possesses a quick perception of the beautiful, considerable imagination and lyric power. He has studied the physical aspects of nature to some purpose, and paints a landscape with considerable facility and vividness of color. What time, and a study of the best models, may do for Mr. Miller, we cannot say. His little book gives promise of better things, and we hope to hear from him again, and receive something worthier at his hands.

OREGON.

Hon. Jesse Applegate is now teaching school in Douglas county.

The steamer *Echo* got up to Eugene again last week, rather an unusual thing for this season of the year.

The United Presbyterians have established a church organization at Salem with a membership of twenty persons. A number of members from Albany, including Rev. G. S. Irvine, were present on the occasion.

The following quotations are given of the cost of hauling freight from Umatilla to Idaho: Ox teams to Boise City 4 cents; horse teams 4½ cents; pack trains to Idaho City, 6 cents; mule and horse teams, 6½ cents.

The May number of the *Overland Monthly* has an article entitled "Silets, or 'Lo' Reconstructed." It is a well written account of the Silets Indian Reservation, and no doubt will be read with interest, especially by those who have some knowledge of that locality.

The Roseburg paper says: "By Mr. J. A. Haynes of Curry county, who was in town during last week, we are informed that Salmon Gulch still affords highly encouraging prospects in gold bearing quartz. Veins have been discovered, but it is yet unbertain whether they will continue rich to any considerable extent."

The *Journal* speaks thus of the prospects of the Lane County Agricultural Society: "About one hundred shares of twenty five dollars each, have been received with but little effort for the purpose of getting into operation an agricultural society in this county, and it is reasonable to believe that the remaining one hundred shares can be secured easily. There is a tract of land for sale a short distance below town, which is a splendid location for the fair grounds, which makes it an object to secure the *bona fide* organization of the society in time to purchase the land before it is sold to other parties."

The Boise *Statesman* reports that on May 4th a shooting affair took place at Amelia City, in the new diggings near Morrison Basin, Baker county. A man known as Scotty, got into a dispute with his partner, McNully, about a water ditch. He took a Henry rifle, and stepping a few paces from the door, threatened McNully, and told him to come out, that he was ready for him. After a few more words McNully got a Spencer rifle and went to the door and exchanged shots. It is not positive that McNully's gun went off, he had some trouble in discharging his piece, and stepped partly behind the door. The second shot that Scotty fired hit McNully in the arm, and then passing through four thicknesses of a stove drum hit a man named Lowe, entering the right breast and lodging in the left, killing him instantly. Scotty fled to the hills and has not yet been captured.

THE "KITTEN TRADE."—The San Francisco *Bulletin* of May 5th has the following in relation to this disgusting trade:

This trade has become lively within the past few weeks. A walk about the wharves and markets indicate a great increase in the business. Now a "kitten" is the market name for a calf anywhere from three hours to three days old. They are landed in this city by cargoes. They are early bought, served up, and—shall we say it?—eaten. We counted a cargo landed from Bolinas the other day—as many as could be brought on the deck of the schooner. Three fourths of these were kittens, and the rest might have been a little over a week old. But they attained their "maturity" while waiting to be shipped. The business has increased fearfully. The Petaluma boats bring down a great many, Marin county sends down a great number. They come from all quarters within a hundred miles of the city.

The San Jose (Cal.) *Mercury* furnishes a list of two or three names for each of the county officers for Santa Clara county, and says, "with these men in nomination the Republicans can easily carry the next election," and adds that "many Democrats of the better class are disgusted at the church-burning and Chinese-hating portion of their party."

The Boise *Democrat* mentions a point on the Pacific Railroad, only 240 miles from Boise City, called Indian Creek, as the probable depot for Idaho. Whether Indian Creek is east or west of Goose Creek, says the *Wave*, we do not know, but presume it to be west, as according to our geography the nearest point to Boise must be not far from Humboldt Wells.

DISPATCHES TO THE OREGONIAN.

DATES TO MAY 15.

Washington News.

NEW YORK, May 15.—It is stated that Howard, Minister to China, urges that the mission to China be raised to the grade of British Embassy. The President agrees in his views.

A fight took place at the Capitol yesterday between C.I. Duncan and C.I. Cayehart, applicants for the office of Superintendent of the Interior Department. The former was worsted.

CHICAGO, May 15.—Felton's removal from the Sub Treasury is settled. The chances now favor the appointment of Eastman, of Folsom, as successor, but not Freeman. Eastman is a personal friend of President Grant. Cole does not recommend the removal of Swain from the Mint, but if there is a vacancy, he will still urge the appointment of Harvey. Cole denies that he ever thought of urging his brother in law, Whiting, for Mint Superintendent.

The *Republican's* special says the new Minister to the Argentine Republic and Uruguay, received his instructions to-day and will sail on the 22d.

WASHINGTON, May 15.—The Secretary of State authorizes a denial of the report that Minister Morris will be removed from the Turkish mission.

A delegation of colored men had an interview with Admiral Porter and urged the appointment of colored men as caulkers in the navy yards of the country. The subject will be referred to Secretary Borie.

The *Times'* special says that workmen yesterday removed the old hydraulic presses from the Printing Bureau of the Treasury Department prior to their removal to New York. This ends the famous old Printing Currency Bureau which was the subject of so much scandal. Currency will not hereafter be printed by hydraulic presses.

Secretary Fish stated at the cabinet meeting yesterday that official intelligence does not confirm the triple alliance story, and he does not deem further inquiry necessary.

WASHINGTON, May 16.—At a meeting of the Typographical Union of this city last night, a son of Fred Douglass, the colored orator, applied for membership. The application was referred to the committee on nominations. A preamble and resolutions were presented setting forth that whereas, Douglass had been rejected by the Typographical Union of Denver, because he was colored, it would be unbecoming in this society to admit him to membership. A resolution was also offered for granting Douglass a card permitting him to work until the society takes action on his case. The resolution was ruled out of order. After considerable discussion, the meeting adjourned to the 19th of June, when the committee is expected to report. Over 500 members were present. Much feeling and interest were manifested in the matter, which it was believed will be eventually referred to the National Typographical Union.

Scheme to Protect Boats at St. Louis.

ST. LOUIS, May 15.—A movement is on foot to protect the river marine from fire and river piracy. It is proposed to procure an iron-clad tug with sufficient power to tow from the levee the largest steamer in case of fire, with a powerful steam engine aboard, the tug to ply up and down the harbor. The insurance interest will probably furnish the tug and the police authorities man her. It is also proposed to license and register all skiff and small boats plying in the harbor as a preventive of river piracy, which is being carried on extensively.

Indiana Ratifies.

INDIANAPOLIS, May 15.—In the House of Representatives, yesterday, the Fifteenth Amendment was ratified, having the House of Representatives, yesterday, the Fifteenth Amendment was ratified, having the [illegible] 42 Democrats resigned, leaving the House without a quorum. The chair ruled that a quorum was not necessary to ratify a constitutional amendment. The House passed the joint resolution by a vote of ayes, 52; noes, none; two Democrats and one Republican present refusing to vote. Seventy-seven members constitute a quorum.

Miscellaneous.

CHARLESTON, May 15.—Accounts from all parts of the State represent the upland cotton crop to be seriously injured by the recent cold weather. In many cases replanting will be necessary. The Sea Island crops look promising.

ST. LOUIS, May 16.—The Assistant U. S. Treasurer here has been authorized to sell importers all the gold they need to pay the duties at current New York rates.

J. L. Bowman, a humorous writer to the press, over the signature of "Hans Patrick Le Conner," died in the Sisters' hospital to-day.

NEW YORK, May 15.—The meeting intended for the reception of Warren and Costello, released Fenians, occurred at Cooper Institute to-night. Neither Warren nor Costello attended, considering the demonstration as partaking of a partisan character. Griffin, of the savage wing of the Fenian Brotherhood, presided; speeches by Coe, Nagles and others.

BOSTON, May 14.—The Legislative Railroad Investigating Committee held a meeting last night. Officers of the Boston, Hartford and Erie Railroad were examined, and nothing was shown of payments to improperly influence this Legislature. Eldridge, President of the road, testified that last March, while he was at the headquarters of the New York and Erie Railroad Thos. Drew, who had been imprisoned 25 days for contempt, visited him at Boston and said he proposed to publish certain articles in his possession against the management of the Boston, Hartford and Erie. Fearing they might depreciate the securities and impede the pending negotiations for a loan, Eldridge gave Drew ten thousand dollars from his own private purse, as he was carrying at the time about $60,000 worth of stock at his own risk and account, and then Eldridge and Drew combined. An effort had been previously made to break down the securities by telegraphing false sales to New York. Drew will be examined at a future meeting of the committee.

CHICAGO, May 15.—The pigeon shooting match yesterday, between Ward, the champion of Canada, and Bogardus, champion of Illinois, for $5,000 was won by Bogardus killing 155 birds. Ward killed 145.

ST. LOUIS, May 16.—A movement is on foot for the establishment of Union stock yards in this city. A meeting of cattle dealers and business men was held last evening at the Southern Hotel in furtherance of this project. A committee was appointed to ascertain what arrangements can be made with the railroads and report to a meeting next Saturday night.

NEW YORK, May 16.—Rufus L. Lord, the victim in the celebrated Lord Bond robbery, died yesterday.

Much consternation was caused yesterday in a prominent Broad street banking house by the disappearance of the junior member of the firm taking with him two certified checks, one for ninety-five thousand four hundred and seventy five dollars and one for twenty three thousand six hundred and fifty dollars. His destination has not been discovered, nor what disposition was made of the checks.

DAYTON, Ohio, May 16.—At one o'clock to day the Turners' Opera House in this city was entirely destroyed by fire. The building was occupied by several large business houses. Three fine residences east of the Opera House were destroyed also. The fire communicated to the adjacent building on Main street, which was consumed. One man was crushed by the falling of the walls, while endeavoring to save his goods. He lay under the ruins some time, when another crash came and completely buried him. His wife and children were present but no human power could save him. The scene was heartrending. The total loss is estimated at over $500,000. The fire is supposed to have been the work of an incendiary. The Opera House was one of the finest in the West. The loss on this was $250,000 over and above insurance.

POUGHKEEPSIE, New York, May 17.—The losses by fire, caused by lightning yesterday, at Eddyville, amounted to $32,000.

CINCINNATI, May 17.—By the Prosecuting Attorney, Blackburn, in behalf of the State, yesterday, in the Court of Common Pleas, ex Auditor Mitlich was sued to recover $50,000, alleged to have been received by him for Commission fees and salary as bookkeeper, contrary to law. Also, ex Auditor Hinburn to recover $35,000, on the same grounds.

A petition was also filed against B. W. Thrasher, Commissioner Deputy, during the term of said Auditor, for $35,000, alleged to have been received as his share of the Commission fees.

WASHINGTON, May 17.—The President has not yet taken the preliminary steps for submitting the constitutions of Mississippi and Texas to those States respectively.

Since the opening of the Pacific Railroad the Government Departments have regularly received their daily mail from the Pacific Coast.

CHICAGO, May 17.—The first through passenger train, from Sacramento, arrived at Omaha yesterday with about 300 passengers. The travel west from Omaha is very heavy.

The total value of the taxable property of the State of Illinois, as returned under the recent equalization, is $471,000,966.

NEW YORK, May 16.—The *Tribune's* Atlanta, Georgia, special says the colored men who drove the carriage of the Hon. John Atkins, when that gentleman was assassinated, is said to have left Warrenton county last week to escape death, and when near Thomas station, was met and murdered by the Ku Klux. Information received here announces the murder, some weeks since, of Hon. Alexander Stone, of Jefferson county, one of the expelled members of the Legislature from the same county. Dr. Ayer reprobated.

From Cuba.

HAVANA, May 15.—The usual accounts of engagements have been received, magnified, armored and sent by both parties. The war news, so far received, is unreliable. The fighting, according to impartial correspondence, is insignificant.

The sugar market is animated. Price are unchanged.

BY ATLANTIC CABLE.

PARIS, May 16.—Election meetings have been held in all parts of Paris up to a late hour yesterday, but moderated as the day advanced. The police dispersed some of the crowds which remained in the streets to a late hour at night, but no serious disturbances occurred. The Government issued a warning, which was placarded throughout the city, declaring that a renewal of the recent disorderly assemblages will not be tolerated. The Prefects have been directed to dissolve any meeting likely to lead to disturbance, and to strictly enforce the law prohibiting the holding of political meetings within five days of an election.

LONDON, May 16.—Telegraphic advices to-night from Paris show that the political agitation there was revived to-day, and that the excitement was very great in those sections of the city where the Liberal party is the strongest. The authorities are taking extraordinary measures and precautions to prevent disorder, and at last accounts, no serious trouble had occurred. They say that the newspapers announced that a grand popular demonstration will be made on Monday.

MADRID, May 16.—The Cortes yesterday, after a long debate, rejected the proposition for the establishment of a triennial directory.

It is now confidently believed that a regency will be created, with Marshal Serrano at the head. Several members of the Circuit Guard of the city, have been arrested on charges at present unknown. Trouble has arisen with the volunteers for Cuba in consequence of the non payment of their bounties.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, May 17.—A shooting affray occurred last night at half past seven at Meigs' wharf on the return of the McMahon Guards from a picnic at Sausalito. It seems that some of the Guards were intoxicated and very quarrelsome. On being ordered by some police to keep quiet, they singled out one of them and attacked him. Officer Harrington, on going to the assistance of his brother officer, was knocked down and badly beaten. It is stated that he drew a revolver, which was discharged, taking effect upon Mathew Thompson. It is stated that Harrington was about to fire the second time, when the pistol was taken away by officer Barber and thrown in the Bay. The matter will be investigated by the Police Commissioners. Thompson is probably fatally wounded.

A boy was nearly gored to death yesterday afternoon at the corner of Filbert and Mason streets, by an infuriated cow. He was rescued in time to save his life.

Capt. James Devoe, an old resident and for many years senior partner in the firm of Devoe, Densmore & Co., Machinists, died at 2 o'clock this morning, from paralysis.

VIRGINIA, May 15.—The Virginia and Gold Hill Water Co. have struck an additional supply of water which will measure 30 or 40 inches.

Many White Pines are arriving daily. They generally concur in asserting the thing is overdone there. No regular leads have been found and real estate is rapidly declining.

The new steam hoisting works have been put in operation at the Julia mine. This company has a vein of pay ore, thirteen feet wide, assaying $13 to $28 per ton.

The vein in the Hale & Norcross lower level is thirty feet wide, and widens as they go down.

The receipts of the Savage mine, for April, were $73,900; dividend for the month, $64,000.

The Pacific Union Express Co. shipped, last night, twelve bars, valued at $2,447 91. W., F. & Co. shipped twelve bars, valued at $27,181 95. Total, $29,629 86.

VIRGINIA CITY, May 17.—We had a fine shower this evening with electric accompaniments.

Three cases of small pox are reported at Gold Hill. Cool weather appears to favor the spread and propagation of the disease.

THE RAILROAD TERMINUS.—By the arrival of the steamer *Orizimbo*, it will be positively known where the Railroad Terminus on the Sound will be established, and before long an army of men, equal to that of the grand Pacific Railroad, will be employed, who will build the road with all possible speed. The Depot, without further doubt, will be established at the well known house of KOHN & FISHEL, No. 91 Front street, where the finest, best and most stylish Clothing, Gents' Furnishing Goods and Dry Goods can always be had, at such low prices that the most crabbed purchasers must be pleased.
